Calculate

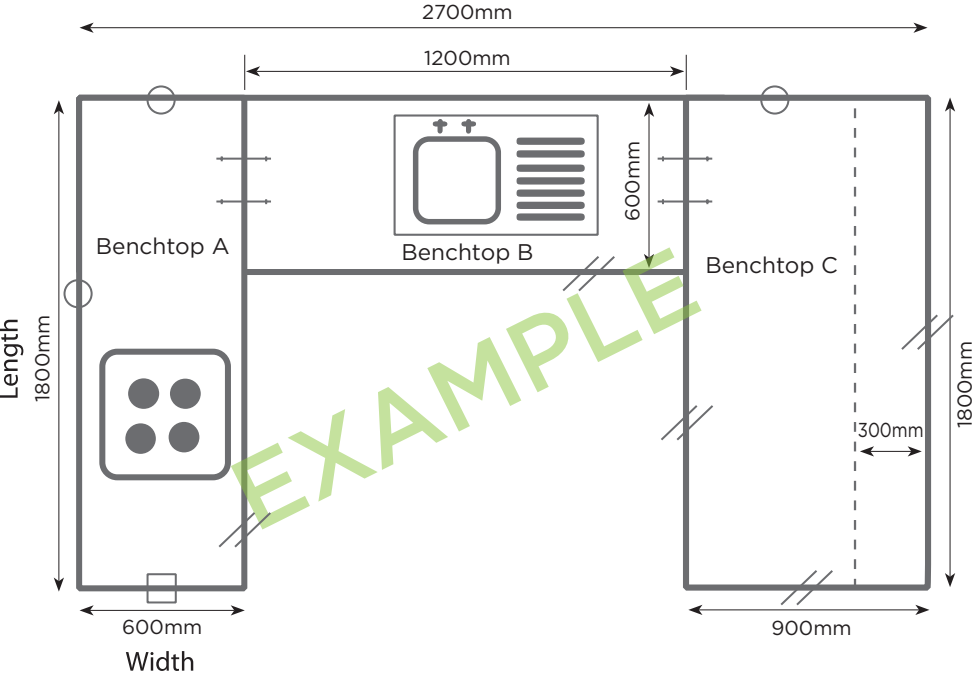

Calculating the m² of your custom made benchtop & splashback

By detailing your requirements on the planning grid, we will manufacture your Think Benchtop and/or Splashback exactly to your requirements. All custom made DIY benchtops will be supplied with a factory prepared join and installation kit.

Think Solid™ Benchtop example

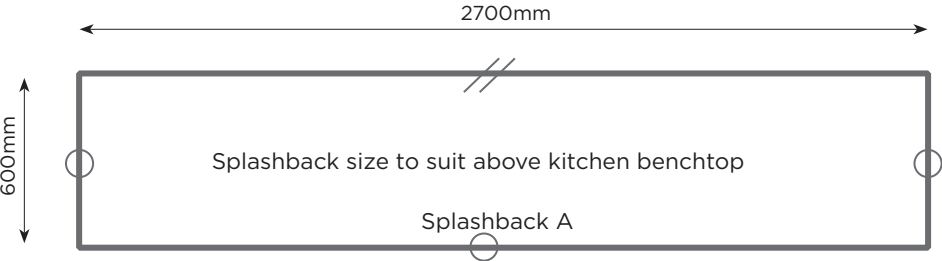

To calculate the m² it is best to section your benchtop as shown below.

Benchtop piece A	$\frac{1.8 \times 0.6}{1} = 1.08 \text{ m}^2$
Benchtop piece B	$\frac{1.2 \times 0.6}{1} = 0.72 \text{ m}^2$
Benchtop piece C	$\frac{1.8 \times 0.9}{1} = 1.62 \text{ m}^2$
TOTAL BENCHTOP	<u>3.42 m²</u>

Think Solid™ splashback example

Splashback piece A $\frac{2.7 \times 0.6}{1} = 1.62 \text{ m}^2$ |
